Philip Tomlinson

Freelance Web Developer

SUMMARY

I'm a **freelance web developer** providing professional services for clients and agencies throughout the UK. I work with clients of all shapes and sizes, from start-ups and small business to large national companies.

With **20 years of experience** in the industry, I've worked with many languages and frameworks, from basic HTML5, CSS, and JavaScript, to Blazor, Jekyll, WordPress, and many more.

EXPERIENCE

Freelance Web Developer

Coderover Ltd [2013 - present]

Provide web development services on a freelance basis for a wide range of clients. Use a multitude of languages and frameworks to fit client requirements and needs, as listed in my current **SKILLS**.

Head of Development

First Internet Marketing [2007 - 2013]

Worked as a full-stack developer primarily with PHP and MySQL. Frameworks included CakePHP, WordPress, and Magento. Managed a small team of developers to deliver projects to clients.

IT Manager

Prestbury Travel Group [2005 - 2007]

Maintained company website for hotels and villas. Developed internal customer quotation application using PHP and MySQL. Provided general IT support for staff members across several locations.

Junior Developer

Purepages Group [2004 - 2005]

Built and maintainted internal and external website applications using ASP, PHP, and MySQL. Tested internal software applications developed externally.

EDUCATION

BEng (Hon) Software Engineering

University of Bradford [2001 - 2004]
